

## Adding a Comment– HTML

Sometimes timekeeping requires a comment. Typically comments are added by the manager (or an MCtime team member), as a way to explain an edit on the timecard.

When an employee is provisioned FMLA or Parental, any absence is assumed to be related to the provisioned Tracking codes, however the employee (or manager) may use the comment code to indicate any leave that is not being used for the FMLA or Parental events. All FMLA leave is also Parental, as it relates to the newborn. If Compensatory Leave is used, (and FMLA cannot be applies) only Parental should be used.

Currently three comments exist that employees can use to designate leave used that does not relate to the FMLA and/or Parental Leave event:

- Employee Indicated Leave Not Related to FMLA
- Employee Indicated Leave Not Related to PARENTAL
- Employee Indicated Leave neither FMLA nor PARENTAL

### How to Add a Comment – HTML

1. Place the cursor on the leave that you wish to designate.
2. Click the Comments block to open the dialog box.
